

ACS Initial Training & Assessment

CCN1

This course is aiming to provide all gas operatives with their CCN1 (domestic core gas safety) and appliances initial assessment in order to be eligible for Gas Safe registration. All gas operatives and heating engineers, who install, maintain and repair domestic gas appliances must hold the relevant qualifications for the areas of work respectively. Operatives are required to obtain qualifications under the Accredited Certification Scheme (ACS). This certification scheme is regulated by the United Kingdom Accreditation Services (UKAS). This certification need to be renewed every five years.
