

Lomax Training Services

Quality Assurance Policy

The following is taken from the ISO 9001:2015 Lomax Training Services Limited Quality Manual

Quality Policy Statement

Lomax Training Services Limited recognises the need to provide a high quality, professional service which exceeds all the requirements of our clients within the energy training and assessment sector and also to comply with the needs of all interested parties.

The organisation is committed to ensuring the quality management system is implemented, integrated within the business, maintained and its effectiveness improved.

The management within Lomax Training Services Limited support a policy of promoting continual improvement and setting quality objectives which fall in line with the businesses strategic direction. These objectives will address the risk and opportunities which have been identified by senior management.

Roles, responsibilities, and authorities will be clearly defined by management within the quality management system.

The management will ensure that sufficient resources are present within the organisation, so each employee understands their role and the importance of the quality system processes within the business. This policy will be communicated to all employees to aid in their understanding of how they contribute to the success of the business through the achievement of departmental and individual objectives.

Lomax Training Services Limited has established an effective and efficient quality management system that meets the requirements of EN ISO 9001: 2015. The organisation also has established an Information, Advice and Guidance system based on the nationally recognised Matrix Standard and holds the Investors in People Standard (IIP) accreditation.

Signed:

A handwritten signature in black ink, appearing to read "J. E. Lomax". The signature is written in a cursive style with a large initial "J" and a long, sweeping underline.
