

## 2365-02 Level 2 Diploma in Electrical Installations (Buildings and Structures)

---

This is a qualification that tests both practical and knowledge-based skills in a realistic working environment. When you have successfully completed this qualification, you will be at an Improver/Electrician's Mate level. This qualification is a starting-point for anyone looking to enter the electrical industry without an apprenticeship already lined up.

This qualification gets trainees the foundational knowledge, but they will require the Level 3 (2365-03) and an NVQ later to become a fully qualified "Gold Card" electrician.

Duration:	2 Day's per week for 8 months
Course Space:	12 Trainees
Method of Delivery:	Trainer Led
Who is this for?	Those aged 19+ who wish to gain a qualification within the electrical industry

### Course Objectives:

- Health & safety in building services engineering
- Principles of electrical science
- Electrical installations technology
- Installation of wiring systems and enclosures
- Understand how to communicate with others within building services engineering

## Technical Information

Date Produced: April 2026

Pre-requisite Qualifications: There are no prior qualifications required. However, trainees must demonstrate Level 1 standard at mathematics and English to sit this course.

Assessment Type: Multi Choice question papers, practical assessments and portfolio of evidence.
