

ELR (Refresher)

This course is designed to provide engineers with an update and refresher of current Escape, Locate and Repair procedures and the associated repair techniques.

Note: This does not provide City & Guilds unit accreditation.

Duration: 1 Day

Course Space: 8 Trainees

Method of Delivery: Trainer Led

Who is this for? All utility operatives who are required to undertake escape, locate and repair activities on the UK network. Managers and supervisors would also benefit from attending this course

Course Objectives:

- State safe working practices and procedures when dealing with gas escapes and other emergencies
- State the priority emergency actions when dealing with gas escapes and other emergencies
- Demonstrate how to operate gas detection equipment and evaluate readings
- Identify the factors that will lead to the safe rectification of gas escapes and other emergencies
- State the various repair techniques

Accreditation

In-House certificate only

Technical Information

Date Produced: April 2026

Pre-requisite Qualifications: Must hold a valid/expiring ELR certificate. Or, with no prior qualifications, use this course as an awareness for those working within the utility industry

Assessment Type: Multi Choice question papers and practical assessment
