

Emergency First Aid

This course will provide engineers with the knowledge and skills to manage first aid emergencies effectively in the workplace

Duration: 1 Day
Course Space: 12 Trainees
Method of Delivery: Trainer Led

Who is this for? Those who wish to undertake training in emergency first aid. It is especially suited for nominated first aiders and for those who may need to provide first aid in situations where an individual becomes injured or sick at work

Course Objectives:

- State the roles and responsibilities of a first aider
- Understand how to deal with incidents and accidents
- Explain the emergency response strategies
- Demonstrate the recovery position
- Explain how to recognise and deal with shock
- Explain how to control bleeding
- Demonstrate how to administer CPR

Accreditation

In-House certificate or accreditation through Qualsafe
